

Irri-Tape

Holographic iridescent diffraction foil drives away birds

- Irri-Tape bothers all of a bird's senses
- Visual Scare: birds are scared by the material's sheen, as the light causes constantly changing reflections and shadows.
- Sound scare: birds are rattled by the fierce metallic noise Irritape makes as it blows in the breeze
- Physical Deterrent: birds are blocked by Irri-Tape and its brackets on any surface

Model # TAPE-100 (also available in 500' roll: TAPE-500)

IRRI-TAPE can be used alone or in combination with electronic sound/ultrasound devices or chemical repellents.

Coverage: up to 6,000 square feet

Pests: pigeons, sparrows, starlings, crows, blackbirds, grackles, seagulls, swallows, woodpeckers, ducks, geese, predators, etc.

Uses: yards, gardens, rooftops, parks, ponds, boat docks, orchards, private beaches, patios, balconies, any open outdoor area or any semi-enclosed area with access to light and wind.

SPECIFICATIONS

Material: Polyester
Width: 2 inches
Thickness: 2 mil

VISUAL SCARE DEVICES

Prowler Owl

Scare birds with a dynamic, realistic, visual predator:

Moving owl frightens birds and small animals away

- Life-sized owl
- 4 foot wingspan and accurate markings
- Patented airfoil technology
- Always-moving "hunting" postured owl never perches so birds can't acclimate

Resembles the ultimate, most-feared aerial predator, the Great Horned Owl, which catches and eats almost anything that moves. Tireless patrol sets up anywhere - the breeze and its natural appearance do the rest. Don't be fooled by imitations that just sit there - without movement, they're useless.

Coverage: up to 6,000 square feet

Pests: birds (pigeons, sparrows, starlings, crows, blackbirds, grackles, seagulls, swallows, other birds), small animals and critters (skunk, rodents, rabbits and squirrels, more)

Uses: parks, gardens, yards, fields, rooftops, golf courses, marinas, trees, other open areas

Model # OWL

PROWLER OWL can be used alone or in combination with electronic sound/ultrasound devices or chemical repellents.
SYNERGY (combining types of scares) is always the most effective approach to pest bird control.

SPECIFICATIONS:

Wingspan: 44", total head-to-tail 28", head diameter 7"

Heavy Duty Materials: Head is hard resin plastic, body is strong-weave iron hide fabric supported by woven flexible cables and riveted plastic struts

Shipping Box: 2 lbs., 12" x 7" x 10"

Mounting: Place neck opening on a 1/2" diameter pole
